- Size: 305.7 x 220.6 x 6.9mm
- Weight: 0.713Kg

## Apple iPad Pro

**iPad Pro hire with the Apple pencil available from Rent IT providing an ideal platform for design, CAD and medical applications.**

With a 5.6 million pixels 12.9" screen and a 3rd generation 64 bit A9X CPU, the iPad Pro is the largest and most powerful tablet Apple have released but have managed to keep the weight down to 713 grams (similar to the first generation iPad with 3G). Coupling the iPad Pro with the Apple Pencil provides designers and artists an ideal digital canvas to be creative. With enough power to simultaneously render three 4K video streams in iMovie or manipulate 3D medical images, the potential application for this tablet is boundless.
