Lenovo E570

The Lenovo Thinkpad E570 laptop hire model with a 1080 Full HD screen and a SSD hard drive is well suited for training courses and events.

Boot times to Windows 10 have been dramatically reduced with the inclusion of a 256Gb M.2. SSD resulting in a much more responsive laptop. The Core i5 2.5Ghz CPU with 8GB RAM as standard coupled with the higher resolution Full HD screen results in a higher performance office laptop hire solution.

The built in 720p camera and microphone enables video conferencing, and larger external monitors and projectors can be connected via VGA or HDMI ports. External connectors include 2 x USB3.0 and 1 x USB2.0, 1 x Gigabit network port (and built in wireless networking), 1 headphone socket and a 4 in 1 card reader. All laptops include external USB mice and a set up service is available to install software and media provided by our clients prior to despatch.
