- Weight: 12Kg

Workstation MKIII

Today's CAD, graphics video and animation software needs high performance PCs - enter the Rent IT MKIII workstation.

Evolving from the previous high end workstation rental models, the MKIII workstation PC is based on the Intel 6 core 4930k CPU with water cooling, mildly overclocked to 4GHz with standard memory increased to 32GB @ 1866MHz with an option of 64GB. The standard graphics card is a single nvidia GTX780Ti with 3GB RAM and an impressive 2880 cuda cores providing an ideal platform for media creation and rendering (an additional 2 GTX780Ti in SLi can be installed if required). The OS drive is now a 256GB Samsung SSD and additional storage provided with a 1TB hard drive that can be upgraded to 3 x 4TB. Resulting in our fastest PC yet on all aspects of performance.
